- 22 - Res: Wildflower and Looming
- 24 - 28 - G7-11 CWW Trips
- 25 - Season 3 ASA begins

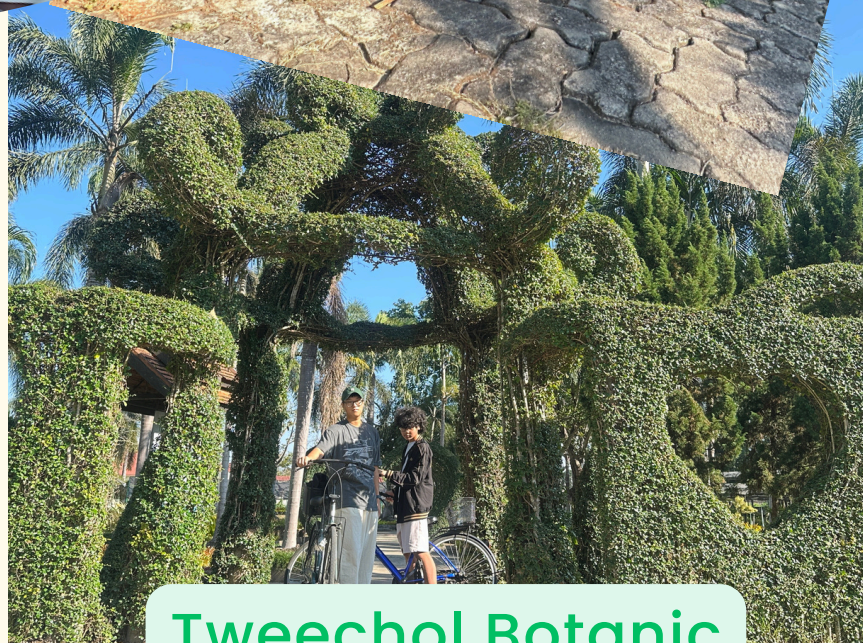

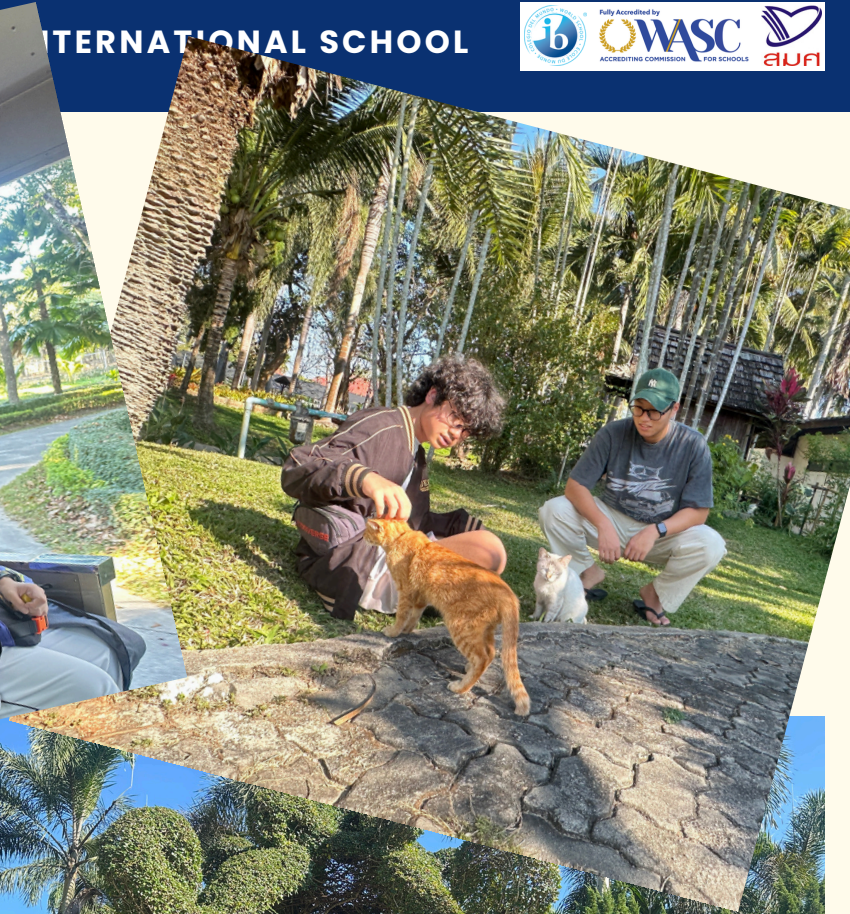

Dear Parents and students

One aspect of life in the residential program is the organized activities and events that we participate in. Throughout the week we have a house meeting to keep the students informed. We also have study hall where a teacher from the school and residential staff help students with their academic work. On the weekends we have an on campus activity which is usually some crafts or helping the community or local environment. Saturday afternoon outing is either cultural or recreational. Sunday morning we often go for a hike, Sunday afternoon we have a student mentoring program where the older students help the younger ones with their English and then all play where everyone must be active.

Is this too much? No, between school and these activities there is plenty of down time. Students who need extra time for assignments or extra homework can be exempt from an activity. Any time you have a question or concern please contact me.
